**Attachments:** Paraquat\_PD\_Animal Primary\_101617\_AW.xlsx  
**Location:** Skype Meeting  
**Start:** 10/23/2017 7:00:00 PM  
**End:** 10/23/2017 8:00:00 PM  
**Show Time As:** Busy

**Recurrence:** (none)

### This week, let's talk about:

- Human study visualization update: <https://hawcproject.org/summary/data-pivot/assessment/475/testing-or/>

## Ex. 5 Deliberative Process (DP)

- Animal-primary study extraction
- EPA has completed review of pilot animal primary studies (most recent tracking file attached)
- Questions to resolve:
- How to address drosophila studies

## Ex. 6 Personal Privacy (PP)

- Path forward: ICF will continue pulling extraction info for the remainder animal studies, and send to EPA on a rolling basis for review, and continue to move forward with studies approved for extraction
- ROB check-in
- ICF/NTP received some feedback from Carolina Vaccari and her advisor in Brazil, but input appears to be mainly on method, and doesn't fill expertise gaps.
- EPA can still potentially check briefly (informally) with experts as well?

Thanks!!  
Courtney
